

Oficiales de construcción con inglés: estructuras metálicas, encofrados, trabajos con hormigón. Noruega Concrete workers for project in Norway

About BHC Construction AS

BHC Construction AS is represented in the biggest cities of Norway and delivers workers to infrastructure projects over the whole territory. BHC Construction AS was first born in 1980, and became a part of Adecco in 2016. Our participation in several projects through the years has given us a solid experience within infrastructure projects - bridges, tunnels, highways and railways.

Are you a skilled worker within construction and infrastructures? With knowledge of big projects in infrastructure? Then we believe you would enjoy the projects we work with! Exciting assignments over the whole Norwegian territory, throughout the whole year. Come to work with us, and share experience and knowledge with your colleagues in Scandinavia!

About the position

We are looking for *concrete workers* for our potential clients in Norway.

We are looking for candidates that:

- Have documented experience in *steel fixing, shuttering, concrete works*. Experience in large, *infrastructural projects* is an advantage.
- Have a working and residence permit valid in Norway or are eligible to obtain one
- Have the possibility to move to Norway or a residence in Norway
- Are fluent in English. Knowledge of one or more Scandinavian languages is an advantage, but not a requirement
- Have good communicative skills and work well in a team

We offer:

- Good working conditions
- The opportunity to contribute to long term projects or direct employment from our clients
- Follow-up from our dedicated consultants
- Help with working tools and clothes.

Number of available positions: 5

Application deadline: 21.12.2016

How to apply

If interested, send us your CV to laura@bhcc.no (All Applications must be **submitted in English**). Copy to eures.nordicos@sepe.es. REF. CONCRETE WORKERS

The candidates will be contacted the second week of January.
